WALTER E. HATCH,
Collector of Motor Vehicle Excise
Tax, Wells, Maine.

AUDITOR'S REPORT

Having examined the accounts of Walter E. Hatch, Collector of Motor Vehicle Excise Tax, I find the same correct with proper vouchers and that the sum paid Joseph P. Littlefield, Treasurer to be four thousand, three hundred fifty-seven dollars and fifty-six cents. The above amount differs

with the amount listed under the Treasurer's Report by \$39.04. This is explained by the fact that the Collector paid this sum over to the Treasurer during the fiscal year 1934 and was listed under the Report of the Treasurer in the 1935 Town Report. See page 147, Treasurer's Report, 1935.

Respectfully,

RUTH B. WALL,

Auditor of the Town of Wells for the year 1935.

REPORT OF THE Superintendent of Schools

Wells, Maine, February 1, 1936

To the Superintending School Committee of Wells, Maine:

I herewith submit to you my report of the schools of Wells.

This school census of April 1, 1935 showed there were 410 boys and 356 girls, a total of 766 persons between the ages of five and twenty-one years of age in the town on that date. There were 541 enrolled in the schools this Fall as the following table shows.

The Committee after careful consideration decided that the high school could be maintained with five teachers instead of six for the school year 1935-1936. Mr. Johnson, as the last teacher elected, was not reelected.

Mrs. Margaret Rowland was elected to teach in the grammar room at Ogunquit. She is a teacher of considerable experience, and has demonstrated her ability to carry on the work. Mrs. Ina Emery is serving us as music supervisor and has made a place for herself in the hearts of all the children.

Several buildings were given a coat of outside paint, namely: Divisions 1, 3, 4, 10 and 14. I believe that during the past five years every school building in use has been given a coat of outside paint with the exception of No. 16. That building we expect to take care of next summer. At No. 9 the interior of the room was refinished. The rooms at Divisions 1, 3, 4, 9, 10 and 14 have been wired for electricity and lights have been installed.

In pursuance of the desire of the Committee to protect the lives of the pupils a steel fence was erected at No. 10 similar to those at Divisions 5 and 9. The continued and rapid traffic by that school resulting from the rebuilding of the Sanford road made the situation extremely hazardous. There have been no accidents to children there, for which we are very thankful.

Because of the overcrowded condition in some rooms in the Fall, it was necessary to assign and convey pupils to different schools than those they had been attending for the previous year. No seventh grade children were assigned to Division 5 from the Beach and Moody sections. Instead, the pupils of that grade in those sections were

conveyed to or retained at the Moody School. It was also found that Division 3 school was overcrowded beyond possibility of remedy by installation of more seats, and the 6th grade from that school was conveyed to the Moody School. These changes have resulted in a full room at Division 4. At High Pine the room was overcrowded and the teacher could not do justice to the children of the lower grades who made up the greater number in the school. It was then decided to convey the children of the 7th and 8th grades from that school to the Grammar room at Division 2. All these changes were necessary, and I believe have been to the advantage of the children affected by the conveyance as well as the children remaining in the schools so changed.

I am very glad to state that again, due to the careful planning of the Committee, there are no overdrafts but there are substantial balances in all accounts.

The fiscal year upon which we are now entered is to be a very difficult one for the school committee. Due to the uncertainty as to the date of the completion of the high school, all plans as to giving up the No. 2 building and remodeling the present high school building for grade use must be deferred until late in the Fall, or perhaps delayed for a year because of the approaching cold weather. It would be very gratifying if the new building could be completed in time for all adjustments and changes to be made prior to September, but all predictions indicate a completion of that project late in the Fall.

I wish to thank the members of the School Committee for their interest and help, the teachers for their loyal co-operation, and all others who have helped in the work of the schools.

Respectfully submitted,

JOHN S. CARVER.

Wells, Maine, February 14, 1936

Gentlemen:

I have examined the foregoing accounts of John S. Carver, Superintendent of Schools, and have found the same correct with proper vouchers, and balance carried forward according to previous records.

RUTH B. WALL,
Auditor, Town of Wells.

WELLS HIGH SCHOOL REPORT—1935-1936

Supt. John S. Carver:

There were one hundred forty-six pupils enrolled at Wells High School during the fall term. Seventy-two were boys and seventy-four were girls. They were divided into classes as follows: Seniors, 23; Juniors, 27; Sophomores, 57; Freshmen, 39.

No change in courses has been made this year. The courses offered are: Classical, Scientific, Domestic Arts, and General.

A slight curtailment of extra-curricula activities has been necessary because of the limited time allowed for each of the two sessions of school. The various clubs and organizations have found it difficult to meet this year, but these groups are hoping for more time next year in which to carry on their work.

The senior class has produced the annual class play; an operetta has been presented by the music group; the orchestra has made two or three public appearances; and the annual prize speaking contest is to be held in the near future.

The basket ball team made an exceptionally good showing and should have an excellent season next year.

Moving pictures, portraying outstanding events in early American history, are being presented every two weeks. These pictures are very instructive, and serve to impress the pupils with the hardships and discouragements suffered by the founders and leaders of our nation.

The school paper, which was started last year, has been continued this year. New equipment has been purchased out of the profits, and many improvements have been made. I hope that this paper has been established as a permanent part of the school activities.

Each member of the faculty has carried on his or her work very satisfactorily during the past year. The special

duties of each teacher have been as faithfully performed as the class room instruction has. The increased enrollment and the longer day have added extra work to the schedule of each teacher, yet the usual high standard of instruction has been attained.

During the five years that I have served as Principal, I have striven to raise the standard of instruction and guidance in Wells High. Much progress has been made, but there are many more improvements which I hope to introduce before my work in this community is terminated.

I sincerely thank the citizens of Wells, the superintending school committee, the superintendent of schools, the teachers, and the pupils for their cooperation; and I hope we may work together in the future as happily and successfully as we have in the past.

AURA W. COLEMAN.

HOME ECONOMICS

Superintendent—John S. Carver:

Home Economics is increasing in popularity all over the country due to the fact that this subject considers everyday home problems which are common to most people.

Since Home Economics includes a large variety of subjects, only a limited number of these can be taught in a two year course. This course is given in Wells with the intention of training girls to work and plan their recreation in the home so as to derive more satisfying results.

The first year course in Home Economics is open to Freshmen only, since the course is given in the afternoon. The Freshman Course consists of three units—27 weeks of Clothing, 5 weeks of Child Care, and 5 weeks of First Aid and Home Nursing.

The Clothing Unit considers such problems as the altering and fitting of paper patterns, the construction of

clothing, and the care of clothing. The girls become familiar with common materials. Tests for identifying the quality of fibers and fabrics are discussed. Design and color in clothing are considered in relation to the girl, herself.

The Child Care Unit takes up the importance of heredity and environment. The prenatal and postnatal care of the mother is considered in relation to the mother's health and the baby's health. The care of the child from birth to six years of age is considered. The baby's food, bathing, habit formation, play, and rest are taken up separately with attention to the relative importance of each to the child's future health and happiness.

The following unit is divided into two parts—First Aid and Home Nursing. First Aid includes a study of the human anatomy in relation to injuries that may occur. The cause, symptoms and treatment of various injuries requiring immediate treatment are discussed. Instruction is given in cases of shock, burns, sun stroke, freezing, drowning, poisoning, bleeding, bruises, strains, sprains, dislocations, and fractures. Home Nursing takes into consideration the requirements of a sick room, as well as the necessary physical and mental requirements of the nurse. The physical and mental condition of the patient is discussed. The care of the patient is considered and some of the nursing methods are taken up.

The course in Home Economics which is offered for the upperclassmen may be selected by any of the Sophomore, Junior or Senior girls whether or not they have taken the first year of Home Economics.

The second year course consists of four units—12 weeks of Social, Family, and Personal Relationships, 9 weeks of Home Management, 5 weeks of Art and Design, and 10 weeks of Nutrition.

The Family, Social, and Personal Relationship Unit is planned for the purpose of helping the student realize what she should require of other people and what she in turn must do in order to be an acceptable member of society.

Character traits are studied to discover which are the most valuable. These are discussed in relation to the family and in relation to friends. The value of cooperation inside and outside the home is discussed. Etiquette, or considerateness for others, is considered in relation to being a guest, receiving and entertaining guests, and conduct in public places.

The Home Management Unit is divided into four parts. Part I consists of a discussion of the care and management of the home in its various phases. Part II consists of a discussion of budgets, practice in making out personal budgets and keeping accounts. Practical application of this is made when each student makes out her own budget and keeps a record of her expenses for a three months' period. Part III is a laboratory course in which the student plans a combination bedroom and living room. This is done by drawing the floor plan to scale, selecting the colors for the room and selecting pictures of the furniture she wants. Part IV consists of a lecture course which explains the methods of refinishing furniture, and a laboratory course in which the student refinishes one or more articles of furniture.

The Art and Design Unit consists of a two weeks' lecture course which explains the principles underlying design and color, and the remaining three weeks which are devoted to a laboratory course in which the students apply these principles by making their own designs and painting them.

The Nutrition Unit takes up the problem of nutrition from the standpoint of its necessity for health and happiness. An explanation of the foods that are necessary for health is given. The value of minerals and vitamins is considered, and the effect on the body of an oversupply and undersupply of calories is discussed. Balanced menus are planned and their mineral and vitamin contents are calculated.

DOROTHY M. SOMERS.

REPORT OF MUSIC SUPERVISOR

Superintendent John S. Carver:

Dear Sir:

It is a privilege to submit my first report as Supervisor of Music in the schools of Wells, Maine. I have endeavored as far as possible to follow the same schedule as that of last year.

It is my aim to educate all the children of this town to be lovers of music rather than to exalt a few as performers. To arouse in the child a keen interest and desire for music, to encourage correct thoughts about music, and to so enrich the life of the child that he will become a finer and more worthy citizen of the community, is my primary task.

To this end every lesson becomes a lesson in music appreciation. The younger children enjoy rhythmical exercises, such as motion songs, marching, running and skipping to rhythmical music. It has been said: "In the beginning was rhythm." This is one of the most important elements of music and should be emphasized in the lower grades. Listening lessons from records are a great source of enjoyment. I hope to have more of this as time goes on, that the pupils may learn to discriminate between music that is poor and that which is good, thus fulfilling Matthew Arnold's idea of culture, "Acquainting one's self with the best things that have been known and expressed." I am trying to stress beauty of tone, to increase the sight reading ability, and to measure the efficiency of the singing classes by the interest and activity of the individual.

From the Rhythm Bands in the lower grades the children are increasingly inspired to study a standard instrument and thus prepare themselves for the grammar and high school orchestras, which are an education in themselves.

The Ogunquit Rhythm Band performed for the Christmas program and the January P. T. A. meeting.

The high school orchestra will make its first appearance early in February before the P. T. A. There are five new members this year.

The high school chorus is rehearsing on the operetta "The Moon Maiden." This will be presented in the Town Hall the latter part of February.

The songs given the children of the lower grades have been in keeping with the seasons and special days, and an effort has been made on the part of the supervisor to correlate the songs with their other studies. In the grammar grades a brief study has been made of world famous musicians and composers.

I hope that through the various musical activities each child may find some channel of musical expression conducive of bringing joy, not only to himself, but to his school, home and community.

"A man often forgets his friends, his native land and sometimes his language but the songs of childhood and youth never fade from memory."

At this time I wish to express my appreciation for the efforts and cooperation of all who have come in contact with this department.

Respectfully submitted,

INA M. EMERY,
Supervisor of Music.

Two pupils have been to the oculist and two have visited the dentist to have teeth corrections.

Pupils of Ogunquit were fortunate this year in having the audiometer for hearing test. Through this device the slightest loss of hearing can be detected and those pupils who did not hear well were retested. Two special school inspections were made during year.

Many visits to homes were made through the year for the purpose of securing parental cooperation with school children, and those ill with tuberculosis and contacts, pre-school children, prenatal visits and social service investigation.

Arrangements were made for five tonsil and adenoid operations. This necessitated many visits to members of organizations and individuals to secure help in corrective work. Transportation of patients if necessary has been given by the nurse in conveying patients for treatment. Through the Red Cross and Parent-Teacher Association 12 children were taken to oculist in Sanford and three children taken to Toxoid Clinic at Sanford. One baby was taken to the Children's Hospital and admitted for treat-

ment. One patient was taken to Hebron Sanatorium. Eight children were taken to and from dentist, and one dental clinic was held for Moody School. In June a Tuberculosis Clinic was held for school children by Miss Gay, State Clinic Nurse. The follow-up on the children was the responsibility of the nurse. Many pupils from this clinic were recommended to have rest periods, to refrain from athletics or to have corrections of throat and teeth conditions made. One Farm Bureau was provided by the nurse at Ogunquit.

Sixty-five pupils qualified on all Seven Points of health which are vision, hearing, weight, postural habits, teeth, and throat, plus birth registration.

In closing I wish to thank the superintendent of schools, the teachers, the Wells and Ogunquit Red Cross committee, the Parent-Teacher Association and all who have assisted with the health work.

Respectfully submitted,

CLYE RICKER, R. N.,
County Nurse
